The German Red Cross (DRK) provides ambulance service to the Stuttgart military community; Patch Health Clinic has no ambulances. The DRK should only be used for genuine emergencies to prevent loss of life, limb or vision or to limit undue suffering.

If a true emergency exists on- or off-post, call the military police at 114/civ. 0711-680-114. This number is answered by the on-duty MP desk sergeant who will relay your request for ambulance service to the DRK.

Be prepared to provide the patient's name, age, sex, nature of emergency, your telephone number and location, including installation, street, building, apartment and room number. ### **Supplement Use Can be Fatal**

A soldier, likely taking a nutritional supplement containing a combination of the herbs Ma Huang and Guarana, died recently during physical training. Another soldier, taking a similar supplement, was treated for a heat-related injury during physical training. Nutritional supplements marketed as weight loss products, performance enhancers or fat burners may contain potentially dangerous ingredients, which given the right conditions may result in permanent injury or death. Of particular concern is the use of these substances with strenuous exercise.

The Food and Drug Administration regulates dietary supplements under a different set of regulations. Under the Dietary Supplement Health and Education Act of 1994, the dietary supplement manufacturer is responsible for ensuring its product is safe before it is marketed. Generally, manufacturers do not need to register with FDA nor get FDA approval before producing or selling dietary supplements. For info go to the Web site <http://familydoctor.org>.
